

900 Supercast Series Films

Curve, Conform, Print and Cut – Our Enhanced Supercast Films Meet Any Screen and Cut Need.

When you need graphics that can tackle difficult shapes, curves and crevices, Avery Dennison's **900 Supercast Series Opaque Films** produce the best in screen and cut applications. Built on our proven film technology, these films are designed for superior conformability, easy installation and long-term removability.

KEY FEATURES

- Improved for enhanced conformability – even in deep channels, over rivets and extreme curves without the need for primer
- Outdoor durability of up to 12 years (black & white) and 10 years (colors)
- Smooth surface with a higher gloss
- New 83# kraft liner for more efficient sign cutting and a smoother backside to help retain film gloss
- 112 color options in stock and our custom color match service for specific brand requirements
- New permanent adhesive with options for long-term removability and our HiTack adhesive for low energy substrates

BENEFITS

- Exceptional when used in 3D vehicle and architectural applications
- Faster, easier installation without the need for primer
- Easier processing, saving you time and money
- Smooth, paint-like finish
- Long-lasting graphics

**ENHANCED
CONFORMABILITY**

900 SUPERCAST SERIES FILMS

**ENHANCED
CONFORMABILITY**
